

## Portable meth lab

Law enforcement officials look over items believed to be remnants of a portable meth lab Wednesday afternoon on Riverside Drive near South Washington Street. The chemicals and bottles were found in a book bag that was recovered from the Sandusky River, said Detective Shawn Vallery of the Tiffin Police Department. Around 3:30 p.m., a caller reported to police that a suspicious book bag was in the river, and METRICH and the Tiffin Fire Department assisted in recovering it. Police are following up on leads, Vallery said.
